

EZ STUMP-IT

The Stump-it range of stump grinders are developed by EZ Machinery for your tree service business, landscape company or farm operation. No need to buy a stand alone self propelled tree stump removal machine, when you can buy a stump grinder attachment for equipment you already own.

The Stump-it series comes in 500, 600 and 700 diameter cutting discs.

- The 500 designed for standard use. This attachment has a cutting diameter of 500mm and a 6 inch cut depth per pass, to suit 3-5T excavator
- The 600 is for your middle sized landscape business and has 8 inch cut depth, to suit 5-12 T excavators
- The 700 is for heavy duty landscaping and has 8 inch cut per pass, 12T and above excavators
- Models suit skid steer applications.
