

EZ MIXER RANGE

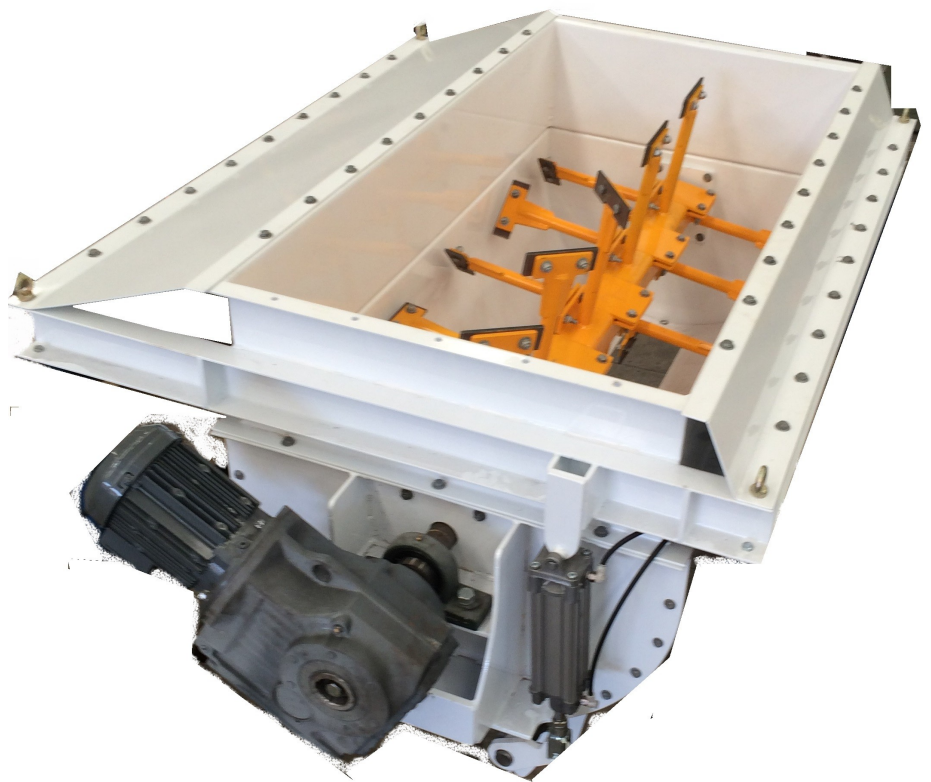

The EZ-Mix range of mixers are a cost effective and efficient way to mix, aerate or blend product.

The standard unit easily integrates into the EZ Bag-It 30, allowing cost effective, fast and efficient processing and bagging. The EZ Mixer Range can be easily adapted to stand alone, allowing a flexing mixing/ aerating/ blending solution to your existing process.

Bomber discharge doors enable fast transition of product and ease of cleaning. The interchangeable paddle design enables you to fine tune your process requirements.

Systems can be designed to incorporate 240V single or 3 phase drives depending on application.
